Department of Printing Technology

**His Excellency the Governor of Tripura Shri Thathagata Roy visits the  
Vocational Training Programme on Recycled Paper Making**

22-04-2017

**A Report**

The Department of Printing Technology organized a Vocational Training Programme on *Recycled Paper-making for Rural Women*.

The programme started at 9.45AM with an orientation on Green Earth concept and initiatives by Dr.TKS Lakshmi Priya, HOD, Printing Technology. The participants were rural women from neighbouring villages, with a minimum qualification of 10 years of schooling. The next session was on paper recycling process by Dr.A.Arulmozhi, Asst. Prof, Printing Technology. This was followed by a demonstration of the paper recycling process at the in-house Paper recycling unit by Mrs.B.Srividya.

Asst. Prof.

Ms.B.Srividya, Asst. Prof., training the participants

21 participants with our Faculty members

At this juncture, Honourable Governor visited the Paper Recycling Unit of the Department of Printing Technology. He went around the unit and observed the process of recycling. Seeing the rural women participants undergoing the training programme, He interacted with them. The Governor was shown the various aesthetic varieties of paperboard samples and products such as letterpads, tea coasters, book marks, notice boards, etc., made by the students of Printing Technology. The Governor appreciated the certificates which were designed and printed by the students while handing them over to the rural women participants.

**Governor Distributes certificates to the participants**

**Students of Printing Technology gifting His Excellency with a ceramic Mug, designed and printed by them**

**His Excellency being shown the recycled paper products**

Later some of the Engineering students interacted with the Governor. The students of Printing Technology gifted him a ceramic mug, on which they had printed an innovative design.

The vocational training programme concluded with a valedictory session with the Director, Dr.Jagannathan, Dean and HODs distributed the remaining certificates.

Participant's feedback

The feedback from the participants proved that the training was a successful one. A few of them wanted to take up a business if our University would give them appropriate hand-holding. Some of them who were aware of the concept of recycling paper waste as homemade paper mache, said that they never knew there existed equipment for paper recycling, and hence this training was an eye opener. All of them realized the urgent need to save earth by adopting green measures and assured that they would spread the message.
