Message from Dean

“A pessimist says the glass is half-empty, an optimist says the glass is half full, and an engineer says the glass is too big”

In the case of School of Engineering, the proverb “Fortune favours the strong” is very true. The School of Engineering is breaking the blockades and moving forward unshaken. With proud legacy of 23 years, the School of Engineering has excelled in every aspect. We have also been adding new, avant-garde elements to our curriculum which provides new perception in emerging technologies.

I am very ecstatic to note that the significant events and accomplishments of the Department of Electronics and Communication Engineering is published every year through this “ECE Annual Newsletter”. In fact the practice of disclosing the “Newsletter” of department is a useful medium to demonstrate its efficiency. The department is committed to lifelong learning, the integration of research and teaching and the development of professional engineers who work in multidisciplinary teams.

Further, I am extremely happy to note that the department of Electronics and Communication Engineering has voluntarily subjected itself for accreditation by the National Board of Accreditation, New Delhi, an autonomous organization promoting international quality of students for technical education in India and successfully got NBA accreditation on the basis of evaluation under Tier-I for a period of three years from 2018-2019. This accreditation is, on the one hand, in recognition of the past efforts and achievements of the department and on the other require continuous efforts for improvement in programs in future to maintain accreditation and to achieve excellence.

On behalf of all the Administrators of the Institute, I convey my greetings to all the members of the faculty and students of the Department for the more rewarding journey ahead in the academic year 2019-2020 and the upcoming years.

The sun can give heat and light to the whole world, but he cannot do so when the clouds shut out his rays. Similarly as long as egotism veils the heart, God cannot shine upon it. -**Ramakrishna Paramahansa**
